

# Unique Building Centre opens

ONE visit to the Unique Structural Company display centre at 18 Coral Street in Maleny and you will know you are on to something special.

The contemporary styled building has all you need in one place to make those important building decisions.

Builder Bo Williams and his wife Suzanne hosted a bevy of guests at the launch on Monday of this new display building and office, the culmination of five years of planning and construction.

"In the hinterland I saw a need to have a display room where people can come and have a look at building styles and products," Mr Williams said.

The new building was designed and built by Unique, a company that employs many lo-

cal builders and sub-contractors.

Mr Williams said the family business had been running in the hinterland for more than 16 years, until most recently out of a tiny bungalow.

He said it had been a lot of hard work to get the business to the point where it is now.

"We're not a standard builder, we have both retail and building sides to the business" Mr Williams said.

"We do anything from renovations to extensions, new homes and commercial work."

Unique also offers the services of their building designer, who focuses on energy-efficient construction design, and an interior designer to help clients with fittings and colour choices.

Display items include water tanks, fireplaces and a range of tiles and tap ware.

Unique's innovative and contemporary buildings can be seen from Coolum to Caloundra and around the hinterland.

Call in to the new centre or call 5494 3672 to find out why this company can confidently call itself Unique.

Tess, Larnie and Jan enjoy the Unique launch.
